MORE THAN A MASCOT

The Florida panther is a big cat native to South Florida and is where our team name comes from. Here are some facts about our favorite cat and how you can help protect the panther!

-  **The Florida panther is the state animal of Florida, and the biggest cat east of the Mississippi!**
-  **Isolated to the southern tip of Florida, panther numbers have risen from fewer than 30 to nearly 200 today.**
-  **There is a saying that cats don't like water, but for the endangered Florida panther, the ability to live in flooded forests and wetlands has been a matter of survival.**
-  **A male panther has a home range of 200 square miles — four times larger than the city of Miami but approximately the same amount of wildlife habitat lost to development in Florida each year.**
-  **Panther males average 130-150 lbs and females 70-100 lbs, with a general adult lifespan in the wild of up to 10-15 years.**
